

Bronchotab®

Natural Breathing Support

PRODUCT DESCRIPTION

Bronchotab® is a unique complex herbal formula that provides overall support of the respiratory function and helps maintain optimum bronchial effectiveness. It broadly addresses many underlying mechanisms linked to optimum breathing.

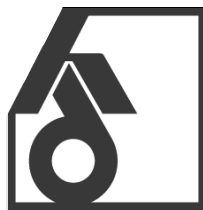

There is a traditional Indian way to help people cope with environmental factors, air pollution and allergens that usually determine the respiratory effectiveness: the use of botanicals that have immunomodulatory and immune-enhancing properties. Formulas also rely on ingredients such as *Tylophora asthmatica* or *Rhus succedanea* that have been shown to support the functioning of the bronchial musculature.

MAIN INGREDIENTS

Himalaya ProSelect® formulas are derived from traditional ayurvedic remedies whose key ingredients are combined to achieve safe and synergistic effects. One active ingredient may be buffered by others while certain ingredients play the role as adjuvants, by strengthening the digestive system or helping to remove wastes. Others are included to increase bioavailability and enhance absorption. No single active constituent has the broad activity of the entire plant and no single plant has the activity and safety of carefully formulated blends.

- **Galls** (*Rhus succedanea*) - Supports bronchial and pulmonary health.
- **Ginger** (*Zingiber officinale*) - Widely used, tasty condiment. Supports the immune system and protects the respiratory tract.
- **Malabar Nut** (*Adhatoda vasica*) - Facilitates the expulsion of thick and tenacious sputum.
- **Licorice** (*Glycyrrhiza glabra*) - Promotes bronchial effectiveness and supports the functioning of the bronchial musculature. Rich in flavonoids.
- **Siris** (*Albizzia lebbek*) - Bark has a long history of use in all respiratory conditions.

Bronchotab®

Natural Breathing Support

RECOMMENDED DOSAGE

Presentation: 120 Tablets

Directions: Take 1 or 2 tablets twice per day, preferably with meals.

Caution: Keep out of direct light and reach of children.

The use of natural products provides progressive but long-lasting results.
Allow several weeks for full benefits.

KEY RESEARCH

The health benefits of *Tylophora asthmatica*, a key ingredient of **Bronchotab®**, have been well documented and proven through clinical trials. In a study published in *Planta Medica* (1991) 409, *Tylophora asthmatica* promotes bronchial effectiveness and regulates the immune response to allergens. Clinical trials have also been conducted on the complete formula, **Bronchotab®**, and have established its effectiveness in supporting the overall respiratory function. The benefits of **Bronchotab®** have been shown to be linked to the suppression of antibody production and inhibition of antigen induced histamine release. The results were published in the *Indian Journal of Pharmacology* 1999;31: 133-137.

OUR DEDICATION TO SCIENCE AND QUALITY

We are dedicated to providing safe and effective natural health products that help “defy aging” and enhance life, naturally. Our scientifically validated natural formulas come from The Himalaya Drug Company, founded in 1930 and a worldwide leader in modern adaptation of an age-old tradition. Rooted in Ayurveda, the Science of Life and Longevity, our carefully balanced herbal blends have been subjected to the modern scrutiny of clinical testing to prove their unparalleled benefits in gently addressing all health concerns. All **Himalaya ProSelect®** formulas are produced to pharmaceutical quality standards in state-of-the-art facilities and “fingerprinted” for consistency by the most sophisticated chromatographic quality control techniques.

OUR GUARANTEE

At **Himalaya ProSelect®**, we focus on science, quality and proven performance, not on esoteric tradition or trendy supplements. Our products have been marketed worldwide for decades and are endorsed by over 100,000 health professionals. We unconditionally guarantee our “Natural Breathing Support Formula” for your complete satisfaction.
