

Mentat® Jr.

Natural Cerebral Support

PRODUCT DESCRIPTION

Mentat® Jr. supports the brain function in normal situations as well as when facing various mental and emotional pressures. **Mentat® Jr.** has been found particularly effective in helping kids maintain appropriate class conduct and helps them face all daily intellectual demands.

The numerous benefits of taking **Mentat® Jr.** daily have been demonstrated in a broad range of cases. Students improved their learning abilities and academic performance through improved concentration and increased attention span; executives and managers improved memory, grasping abilities, understanding and retention; mentally fatigued people and the elderly were helped with their frustrating bouts of forgetfulness.

Mentat® Jr. is an herbal formulation of several medicinal plants which have been categorized in traditional Indian medicine as "Medharasayanas" and used to regulate behavior, improve memory and minimize normal cognitive deficits associated with aging.

MAIN INGREDIENTS

Himalaya ProSelect® formulas are derived from traditional ayurvedic remedies whose key ingredients are combined to achieve safe and synergistic effects. One active ingredient may be buffered by others while certain ingredients play the role as adjuvants, by strengthening the digestive system or helping to remove wastes. Others are included to increase bioavailability and enhance absorption. No single active constituent has the broad activity of the entire plant and no single plant has the activity and safety of carefully formulated blends.

- ❧ **Bacopa** (*Bacopa monniera*) - Main rejuvenating herb for the nerves and brain cells.
- ❧ **Gotu-kola** (*Centella asiatica*) - Famous for improving memory and attention as well as maintaining microvascular integrity.
- ❧ **Morning Glory** (*Evolvulus alsinoides*) - Effective in cases of nervous debility and loss of memory.
- ❧ **Musk Root** (*Nardostachys jatamansi*) - Valerian-like nervine tonic used to calm the mind.
- ❧ **Ashwagandha** (*Withania somnifera*) - Indian Ginseng - Known for its adaptogenic, anti-stress and rejuvenative effects.
- ❧ **Indian Valerian** (*Valeriana jatamansi*) - Like its western cousin, Indian Valerian is a non addictive sedative.
- ❧ **Triphala** (*Amalaki, Haritaki, Vibhitaka*) - Cornerstone of ayurvedic medicine.
- ❧ **Guduchi** (*Tinospora cordifolia*) - Tonic which helps build the body's immune resistance.
- ❧ **Mucuna - Cow-Itch Plant** (*Mucuna pruriens*) - Nervine tonic also shown to be an aphrodisiac.
- ❧ **Salep Orchid** (*Orchis mascula*) - Nerve stimulant and revigorating tonic.

☛ KEY RESEARCH

It is now widely accepted, based on extensive clinical and experimental data, that learning and memory are closely associated with the functional status of the central cholinergic system. According to this model, **Mentat®** was evaluated in the presence of substances known to have cholinotoxic effects. The results, published in an Italian journal, *Fitoterapia* (Vol. LXVI, No.3 pp. 216-222, 1995), indicate that **Mentat®** actively promotes cholinergic recovery, thereby facilitating central cholinergic mechanisms, which explains **Mentat®**'s effectiveness in promoting mental alertness.

Ashwagandha (*Withania somnifera*) was investigated for its effect on the nervous system. The study showed that Ashwagandha is effective on the area which is responsible for tranquility and calmness - (*Indian Drugs Feb.22, 1993, (30) 7, 305-312.*)
