## Natural Vascular Support

### ❦ PRODUCT DESCRIPTION

Pilexim® is an all-natural formula that provides herbal and mineral components essential for maintaining healthy veins. It helps balance the metabolic process involved in maintaining the vascular system's integrity for optimum comfort and appearance. The formulation is based on the ayurvedic tradition of botanical medicine and represents a careful blend of several medicinal plants that help maintain normal tone of venous walls for healthy legs and anal comfort.

Chebulinic acid is known as a potent astringent and has an important role in maintaining the supportive property of veins. The oleoresin portion of Guggul and Berberine hydrochloride work synergistically in balancing the factors regulating vein structure.

### ❦ MAIN INGREDIENTS

Himalaya ProSelect® formulas are derived from traditional ayurvedic remedies whose key ingredients are combined to achieve safe and synergistic effects. One active ingredient may be buffered by others while certain ingredients play the role as adjuvants, by strengthening the digestive system or helping to remove wastes. Others are included to increase bioavailability and enhance absorption. No single active constituent has the broad activity of the entire plant and no single plant has the activity and safety of carefully formulated blends.

- ❦ Guggul (*Commiphora mukul*) - Increases white blood cells. Maintains integrity of the vascular system.
- ❦ Tree Turmeric (*Berberis aristata*) - Blood purifier that has been used for piles. Increases venous tone.
- ❦ Triphala (*Amalaki, Bibhitaki, Haritaki*) - Synergistic combination of three well-known fruits. Excellent intestinal cleanser, adaptogenic and rejuvenator.
- ❦ Neem (*Azadirachta indica*) - Famous herb effective for promoting healthy skin and blood.
- ❦ Indian Laburnum (*Cassia fistula*) - Supports healthy veins.
- ❦ Orchid Tree (*Bauhinia variegata*) - Helpful in maintaining healthy veins.
